**Part 8 Allocation Options for Fixed Index and Structured Annuities**

- For structured annuities, if you allocate money to an Income Choice segment, monthly income will be distributed to you on each monthly anniversary. The monthly income you receive is based on the amount allocated to Income Choice segments (referred to as the Investment Base) and the Annualized Income Rate. If this is the first time you have allocated money to an Income Choice segment, the disbursement will be mailed as a check to your address on record with 10% federal withholding and default state tax withholding. Otherwise, we will follow the destination and withholding instructions on file.
- For structured annuities with Income Choice segments, any money distributed to a client from an Income Choice segment that exceeds the contract's free amount will be subject to a surrender charge and may be taxable as ordinary income and subject to an early withdrawal tax penalty (if applicable).

**Rebalance Instructions**

- Automatic rebalancing is only allowed if you elect one-year indexed accounts and/or the fixed account.
- Automatic rebalancing will begin on the next contract anniversary.

- Establish Automatic Rebalancing     Modify Automatic Rebalancing     Discontinue Automatic Rebalancing  
 Modify Election Instructions Only (no automatic rebalancing)

**Election Instructions**

- For fixed index annuities: we will use the current election instructions on file for automatic rebalancing unless new instructions are entered below.
- For structured annuities: you must complete the election instructions below to establish or modify automatic rebalancing.
- The new election instructions will apply to additional purchase payments and, if established, automatic rebalancing.

**One Time Fund Transfer**

- For structured annuities: Transfers are only allowed during the 30 day period, ending on your contract anniversary. For fixed index annuities: One transfer is allowed during the 21 days after the contract anniversary. If the last day falls on a weekend or holiday, you'll need to complete the transfer by the prior business day.
- The transfer will be effective as of the contract anniversary.
- A transfer will cancel any active automatic rebalancing.

**Part 9 Scheduled Rebalancing for Variable Annuities**

Complete this section if you wish to establish, modify or discontinue a rebalance arrangement. **Not available for variable annuities with the SecureSource Tempo benefit with Investment Path 2.**

- Only variable subaccounts are eligible for scheduled rebalancing.
- Fixed accounts, including the regular fixed account, the RiverSource Life One-Year Fixed Account, or a Guaranteed Period Account (GPA), are not an option for scheduled rebalancing.
- A scheduled rebalance cannot be on the same day as a Dollar Cost Average (DCA) arrangement.
- If enrolled in a DCA arrangement, rebalance allocations must match DCA allocations.
- You may discontinue or modify your rebalancing arrangement at any time. If you change your new money allocation, your contract value will be reallocated accordingly on the next scheduled rebalancing date.

Additional information for DCA and SDCA Arrangements:

- The Fixed Account effective annual rate(s) applies only to payments for a new annuity, or new additional payments to an existing annuity. All effective annual interest rates apply only to amounts remaining in the DCA or SDCA Fixed Account and are not credited after the value has been transferred to the selected accounts.
- RiverSource Life reserves the right to discontinue or modify the DCA or SDCA Fixed Account Program at any time without prior notice. Any change would not affect contract holders currently enrolled in the DCA or SDCA Fixed Account Program.
- RiverSource Life will calculate the monthly transfer amount. Interest is credited and compounded daily. The monthly transfer amount is determined by dividing the value of the DCA or SDCA Fixed Account by the number of months remaining in the DCA or SDCA Fixed Account Program period.
- All amounts must be transferred to the selected accounts within 6 or 12 months, depending on the time period you select. Additional payments into an existing DCA Fixed Account will be transferred to the selected accounts within the remaining time period. For the SDCA fixed account, additional payments will be transferred to the selected accounts for the entire 6 or 12 month time period.

- You may terminate participation in the DCA or SDCA Fixed Account Program at any time by contacting us. Upon termination, you will no longer receive the DCA or SDCA Fixed Account effective annual rate.
- DCA or SDCA does not assure profit nor protect against loss in declining markets. Since the plan provides for continuous investment, regardless of fluctuating prices, investors must consider their financial ability to continue to invest during low price levels. The effective annual yield or total return will fluctuate along with market and other economic conditions. Past performance does not guarantee future results.
- If you are funding a DCA Fixed Account from multiple sources, we apply each purchase payment to the account and credit interest on that purchase payment on the date we receive it. This means that all purchase payments may not be in the DCA Fixed Account at the beginning of the period. Therefore, you may receive less total interest than you would if all your purchase payments were in the DCA Fixed Account from the beginning. If we receive any of your multiple payments after the DCA Fixed Account period ends, you can either allocate those payments to a new DCA Fixed Account (if available) or to any other accounts under your contract.
- A DCA or Interest Sweep plan does not assure profit or protect against loss in declining markets. Since either plan provides for continuous investment, regardless of fluctuating prices, you should consider their financial ability to continue to invest during low price levels.

You acknowledge that you have read the all disclosures and understand the implications of the selection/request that you have made.
