Part 6 Signatures and Acknowledgements

You have read and understand:

"You" refers to the client. "We" refers to RiverSource Life Insurance Co. of New York.

SEPP from your contract are not subject to the premature distribution tax on amounts withdrawn prior to age 59½ as long as your payments are not modified for five years or until age 59½, whichever is later. There are many methods for calculating SEPP, and that each method has potential benefits and restrictions. You further understand that the calculation methods provided by RiverSource Life represent only some of the methods. Calculation of the payment amounts in different manners may show a wide disparity. The method chosen, the assumed interest rate, single vs. joint life expectancy, and annual recalculation are all variables which may affect the amount of the payments you receive.

All elections are irrevocable except as allowed under the one-time switch described on the first page and must be made no later than the time of the first SEPP distribution.

You cannot make additional contributions to, or take additional distributions from, the contract(s) that you are using as a basis for your SEPP.

Any decision regarding the tax and other consequences of these distributions should be made in light of all relevant financial information and in conjunction with your tax professional.

Upon receipt of this completed form, RiverSource Life will withdraw your SEPP amount each year based on the information you have provided on this form. You understand that RiverSource Life makes no guarantee that you will meet all the SEPP requirements applicable to your situation.
